

Speak Characterization Activity

On the outline below, characterize Melinda. Include at least three parts: around her head, write what she thinks and says. You can paraphrase and/or provide direct quotes. In the space around her heart and torso, write what she feels and does. Finally, in the space around her legs and feet, write where she is going (based on what we've read, or your own prediction about where Melinda's going). Each part should have at least three details.
